

Corporate Capabilities

Since 1991 Rivertown Communications, Inc. has been designing and developing custom e-learning, video and blended training courses. Our clients range in size from government agencies and global corporations to single office organizations.

From simple online training to media-rich E-Learning courses, Rivertown Communications excels. Our customers are satisfied and stay with us year after year, because we bring personal attention and quality to every project. Customer satisfaction is a high priority for Rivertown, as evidenced by our Open Ratings score with Dun & Bradstreet of 93%.

Rivertown Communications can help your department or organization maximize the effectiveness of your training budget by:

- Writing and developing cost effective web delivered training programs
- Converting your existing classroom training into an effective web delivered training program
- Developing on line testing programs and surveys to track learner progress

Web-based solutions reach a wide audience. Accessible content means that ADA standards are in place and those with disabilities are not excluded. Rivertown Communications specializes in Accessible training content and incorporates 508 compliance standards in all our development projects. Have a multi-lingual challenge? No problem. Rivertown Communications specializes in multi-lingual projects.
